OUR WORK IN ACTION

Liming With Dynell has already used this storytelling approach across restaurants, community interviews, events, performers, DJs, speakers and vendors.

CARIBBEAN AMERICAN HERITAGE MONTH

For Caribbean American Heritage Month, we invited active members of the community to share their stories at their favorite Caribbean restaurants. We treated the guests to lunch and created separate short promotional features for the restaurants they selected. Both the personal interviews and restaurant features were published through Liming With Dynell.

Celebrating people while creating meaningful visibility for the businesses and organizations connected to the community.
